Wedding Team: Pieter & Joline

We are Pieter and Joline van Wyk. Pieter started Epic Motion in 2009 and Joline joined the dynamic duo in 2015. We got hitched just before the first lockdown and we have been together for 5 years. We can easily be bribed by good coffee and we love an epic love story.

There's something pretty incredible about being able to photograph weddings with your spouse. It's not only awesome for us because we get to spend time together, but it's also a huge benefit for our clients! We know each other's every move!

We are extremely strong as independent photographers too. Joline started her own photography business called "Dream Catcher" that focuses on Newborn and Studio Photography. Pieter is more the outdoors natural light kind of guy.

We chose to be wedding and family photographers because we believe in love, value marriage, and it's perfectly in line with what we live every day.

We want our clients to have a photographer who really GETS them, who embraces who they are and what they hold most dear.

Our daily life is centered around our love and connection as husband and wife.

We understand the effort that goes into planning a wedding. The emotions of seeing each other for the first time on your wedding day.

The bitter sweet moment as a father gives his daughter away, and the joy and laughter as families are joined.

WE GET YOU

"Together, they are a dynamic, unbeatable team."

Together, Pieter & Joline are a dynamic, unbeatable team. They're both patient, accommodating, helpful, and a blast to be around. Our wedding photos are more perfect than we could have imagined. They are a beautiful depiction of the love we felt that day with our family and friends. Pieter and Joline captured a huge variety of candid photos, posed portraits, and tiny moments/details that could have been overlooked. Our wedding album encompasses our entire day from start to finish so completely, that we'll be able to relive it every time we look through the photos.
